Bujumbura, Burundi

EMPLOYMENT OPPORTUNITY!

Vacancy Announcement: 72069524R00001

Open To: All Interested CCN (Cooperating Country National) Candidates

Position: USAID Project Management Specialist - (PMI Data Specialist), FSN-11.

Opening Date: March 12, 2024

Closing Date: **April 10, 2024, 12:00 p.m. (CAT) Africa Central Time**

Work Hours: Full-time; 40 hours/week

BASIC FUNCTION OF THE POSITION

The goal of the President's Malaria Initiative (PMI) is to reduce malaria-related mortality by fifty percent (50%) across high-burden countries in sub-Saharan Africa, and elsewhere, through rapid scale-up of proven and highly effective malaria prevention and treatment measures. Success requires participating countries, and their partners, to deploy the right resources at the right place and at the right time, through more accurate insights from existing data, and accelerating the data-to-action cycle.

The USAID Project Management Specialist (PMI Data Specialist) leads the effort to strengthen malaria-related data systems, and efforts to build institutional capacity within Ministries of Health and National Malaria Control Programs. The Data Specialist provides leadership and guidance to data-related malaria control programs/projects/activities in coordination with USAID, USG, implementing partners (IPs), appropriate host-country ministries and the private sector. The Data Specialist provides technical advice on data collection, analysis, and use, reflecting best practices designed to improve data quality and use, and ultimately advance to malaria prevention, control, and elimination. The Data Specialist administers and monitors malaria data systems and is responsible for data collection and analysis and provides guidance and leadership in the strategic use of data for informed decision making. In addition, the Data Specialist serves as a Contracting/Agreement Officer's Representative (C/AOR) or Activity Manager (AM) for malaria data systems related programs.

MINIMUM REQUIRED QUALIFICATIONS:

EDUCATION: Master's degree or local equivalent from an accredited program in Medicine, Epidemiology, Public Health, Social or Behavioral Sciences, Biology, or equivalent is required.

EXPERIENCE: A minimum of five (5) years progressively responsible experience in designing, implementing, and managing health programs with a focus on data collection and analysis in the area of malaria-related public health is required.

TO APPLY FOR THIS POSITION:

Interested applicants in this position must review the USAID/Burundi solicitation posted on the U.S. Embassy Bujumbura Website and follow the instructions in **Section IV-Submitting an Offer (How to apply)**. The solicitation is available at <https://bi.usembassy.gov/embassy/jobs/> and the Form AID 309-2 is available online.
